ENVIROPURGE FUEL INJECTION CLEANING TOOL

A fuel system cleaning service performed with Wynn's Enviropurge Fuel Injection Cleaning Tool and Wynn's fuel and air cleaning products is the perfect way to remove all of the various deposits that can restrict air and fuel flow. The Wynn's Enviropurge Tool can clean fuel injectors by attaching to the fuel rail (with an appropriate adapter (Kit #ZW04001) and product) and clean the intake (by using the Throttle Body Induction Tool (#ZW31500) and appropriate product. These services will improve engine performance and fuel economy.

- ✓ Cleans Deposits from Intake Valves, Fuel Injectors and Combustion Chamber
- ✓ Restores Lost Power and Improves Fuel Economy
- ✓ Works Off Shop Air, No Aerosol Cans Required
- ✓ Connects to the Vehicle's Fuel Rail
- ✓ 16 oz. Stainless Steel Cylinder Pressurized with Shop Air
