

FUEL

PREMIUM FUEL SYSTEM CLEANER AND ETHANOL TREATMENT

Wynn's Premium Fuel System Cleaner and Ethanol treatment is a specially formulated gasoline fuel treatment capable of cleaning Fuel Injectors and PFI Intake Valves in a single application. This product helps eliminate rough idle and hesitation, protects against corrosion and helps restore lost fuel economy.

- ✓ Cleans Fuel Injectors and PFI Intake Valves Within One Tank of Fuel (300 Miles of Driving)
- ✓ Emulsifies and Removes Water From the Fuel Tank
- ✓ Protects Against Fuel System Corrosion Caused by the Effects of Ethanol in the Fuel
- ✓ Compatible with Gasolines up to E-15
- ✓ Restores Volumetric Efficiency Thus Restoring Lost Fuel Economy, Reducing Harmful Exhaust Emissions and Restoring Performance
- ✓ Safe for Use in All Gasoline Powered Vehicles
- ✓ Safe for Sensitive Materials and Components, Including Oxygen Sensors and Catalytic Converters
- ✓ One Bottle Treats up to 20 Gallons/75 Liters of Gasoline

SPECIFICATIONS:

Product No: ZW67104B

Net Weight: 11 FL OZ (325 mL)

Case Quantity: 24 Each
